Features:

Our sport wash restores and maintains the high performance features of technical fabrics. Helps wickables wick and breathable-waterproof fabrics breathe. Restores loft and effectiveness to down and synthetic insulation. Rinses away completely leaving no residue. Cleans and deodorizes and leaves no scent. Contains no bleach, phosphate, or fabric softener. Safe for all washables and is biodegradable. Helps frequently washed garments last longer and helps restore factory applied waterproofing.

The silicone water guard used is a heavy duty water repellent for fabric and suede. Restores and replaces factory waterproofing. Contains no chlorinated solvents or propellants in the aerosol (uses environmentally-safe CO2 instead). It repels the rain and is more forgiving with washings than the permanent water guard applied at the factory with heat-Teflon application.
